

Smart Bonding Solutions for POS Displays & Signage

Adhesive bonding portfolio –
made by Lohmann

POS Displays & Signage

Displays and signage are key elements of sales promotion at the point of sale. Adhesive tape is often used to attach the displays quickly, securely, and efficiently. Our adhesive solutions support quick and seamless application, providing the reliability and durability required for demanding environments – both indoors and outdoors – while preserving the integrity of your constructions.

POS Promotion - Retail Shelf Equipment

Price rails – also referred to as scanner rails or shelf price strips – are key components of price labeling in retail environments. Positioned at the front edge of shelves, they securely hold price labels, product details, and promotional communications. Lohmann's specialized adhesive tape solutions facilitate both the permanent mounting of price rails and the flexible attachment of promotional notices, wobblers, or special labels. For these applications, we offer a comprehensive double-sided adhesive tape portfolio including permanent adhesive solutions as well as temporary debonding on demand solutions. Available in rolls, spools or die-cuts for customized and automated applications.
