Acrylic foam tapes for secure mounting

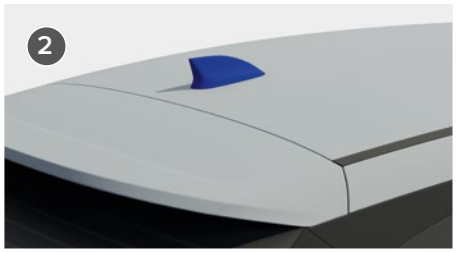

Constructive bonding of attachment parts to car bodies can be very challenging. These automotive tapes securely mount attachment parts to the car body and at the same time provide reliable sealing and vibration damping. The exterior attachment tapes also compensate for thermal expansion and ensure excellent stress dissipation. Their high level of adaptability allows perfect attachment to the car body's curves and corners.

tesa® ACX^{plus} is a category of double-sided tapes for constructive bonding and is the highest performing product line. tesa® ACX^{plus} was especially developed for applications in the automotive industry to securely bond exterior attachment parts to the car body.
